

| Project title | Description of project | Grant offer amount | Amount claimed | Comments at completion |
|--|--|--------------------|------------------------------|--|
| The Management of Barrow Common | Clearing of tracks and clearings at Barrow Common. | £684.29 75% | £684.29 | Work completed early 2006 ready for the community to enjoy the area over the spring and summer months. |
| Coastal Connections. Norfolk Wildlife Trust | Free bus and educational package for school groups to visit and learn about the environment in the Area of Outstanding Natural Beauty. | £750 50% | £750 | All 10 bursaries have been delivered - to Wensum Middle school, St Johns Community Primary, Larkman Middle, Salhouse Primary and Wroughton Middle. 300 students have benefit from the programme. |
| Straw Bale Building Course. David Lincoln | Workshop on sustainable building using straw bales to producing an storage barn for locally grown apple varieties. | Up to £1000 | Completed with no claim made | Offer made subject to number of participants; not required due to full course numbers. A very popular and successful course. |
| Parish Access Sign Boards. Norfolk County Council | Design and produce, in consultation with Parish Councils, 9 Parish Walk signboards, with maps and facilities included on them. | £2,000 50% | £2,000 | All 9 sign boards are in place and helping people to enjoy experiencing the countryside around Holme, Burnham Ovary, Brancaster, Brancaster Staithe, Deepdale, Burnham Thorpe, Burnham Norton, Titchwell and Thornham. |
| Woodfuel Boiler Install Project. Anglia Woodfuels Ltd | Install 2 biomass boilers on 2 sites, produce professional case studies demonstrating these as examples of best practice and supporting and publicising the development of woodfuel supply within the AONB as a sustainable Energy form. | £14,500 15% | £14,500 | Bayfield and Kelling estates now have woodfuel boilers and case studies are being produced. These boilers are playing an important role in helping to establish this environmentally sound alternative to oil/gas/electric heating. |
| Coastal Futures. Norfolk County Council | Learning for Sustainability – an Education package including training for teachers and pupils on making their schools more environmentally sustainable, putting it into practice and raising aspirations and achievement. | £5,729 49.9% | £5,538.90 | The programme was very successful delivered to 13 schools (16 teachers) within or bordering the AONB. 400 students enjoyed a day out at Wells Field Study centre, including a trip to the beach. involved were Snettisham Primary School, Antingham and Southrepps Primary School, Flitcham Primary School, Cromer Junior School, Langham Village School, Wells Field Study Centre, Heacham Junior School, Gresham Village School, Docking School, Brancaster Primary, Sheringham Primary, Holt Primary and Millfield Primary schools. |
| Wise up to Water. Wells Field Study Centre | Water conservation and sustainable garden project including interpretation for young people at Wells Field Study Centre and for local schools. | £7,645 49.5% | £7,645.00 | Entertaining water cycle posters and mural produced and distributed/installed. The water conservation garden and information is in place for all to enjoy and water saving taps and water butts have been installed at the centre |
| Kelling Water Meadow. Kelling Parish Council | Build a sluice to give a volunteer group control over water levels in a water meadow and protect a bird breeding area. Also provide an information panel for the public. | £5,550 75% | £0 | Despite the dedication of Parish Council members, this project did not compete due to difficulties with the contractor, planning permission not being confirmed, and time frame issues. |
| Touching Hearts and Minds Norfolk Wildlife Trust | Develop 4 interactive touch screen info points for the new Cley Visitors Centre on the following themes: 1) A changing coastline, 2) A special coast for wildlife, 3) Birds and bird watching, 4) Green energy. | £8,500 | £8,500 | 2 screens successfully installed with all 4 themes on both of them. Due to escalating costs the number of screens was reduced to 2 with a third being installed by mid 2007. |

|--|--|--------------|---|---|
| North Norfolk Reedcutters Association - Phase II | Equipment purchase to support reedcutters in developing their industry and reducing their carbon footprint. | £13,80575 % | £13,385.5 | The association is now being asked to carry out work for environmental groups as the new equipment means any negative impacts on the environment are significantly reduced. This is helping to maintain threatened wildlife habitats. With new contracts, the cutters now have more secure employment. |
| Areas of Quiet Enjoyment. Holt Town Council | Carry out tree work at Little Hills and involve youth in this work, establish Holt Friends Group, produce Quiet Areas leaflet. | £6,128 50.4% | £3,271.46 | Modified tree work carried out due to poor weather. Friends group (called FROGS) now up and running and a detailed and attractive Quiet Areas brochure produced and available to all. |
| Essential equipment purchase. Burnham Market Area Community Car Scheme | Purchase a photocopier to allow greater efficiency within a volunteer organisation which provides transport to allow the elderly and disabled to remain living in their own homes within the AONB. | £500 100% | £500 | Photocopier purchased and being put to good use, applicants very happy. |
| Soil Association - Living Landscapes | 5 AONB schools to take part in workshops to introduce children to sustainable farming and local food production and networks. | £1,650 75% | £1,650 | Project successfully delivered to Wells-next-the-Sea Primary school, Burnham Market Primary, Langham Village School, Blakeney and Glaven Valley Primary and Brancaster Primary Schools. |
| Norfolk AONB Waste and Sustainability Champion. Ecotech Centre Ltd. | Employ a student Force person for 3 months to provide waste advice, support and networking for businesses, organisations and individuals within the AONB. | £6,000 65.7% | £6,000 | The project has been successfully completed with most targets exceeded. So successful was this service, that NCC has extended the post for a further 6 months to continue the work in the wider Norfolk area. |
| Vegetable and Fruit Garden. Sedgeford Primary School | Purchase greenhouse, seeds and gardening tools for children to develop a garden in grounds including wildflower area and bird boxes. Children will be growing and harvesting food for use in their school lunches. | £1,150 100% | £1,091.24 | 100% grant offer made as project was to be started in 2007/8 when match funding confirmed. However due to uncertainties over the continuation of the fund, the Panel agreed to fund from surplus created by under-spends of 2006/7 fund. Greenhouse, seeds, gardening equipment purchased. Phase 2 to be considered once funding confirmed for 007/8 year |
| Young Sailors in Wells Next The Sea – Wells Sailing Club | Purchasing of 3-4 boats and equipment to allow local youth to sustain an interest in sailing regardless of financial means. | £3,000 47% | £2,211.75 | The project has successfully purchased 3 boats locally along with equipment and will be producing a report on their use by youth in Wells during 2007. This project provides a great way of encouraging youth to get out, experience and appreciate their natural environment in a traditional way. |
